DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - a. Species A- Claims 1-32 and 69-71 are directed gathering and disseminating information.
 - b. Species B- Claims 32-47 are directed to correlation of information.
 - c. Species C- Claims 47-68 and 91-92 are directed to tracking information.
 - d. Species D-Claims 72-90 are directed to editing information.
 - e. Species E- Claims 93-106 are directed to monitoring requests.
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.
3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traci L Smith whose telephone number is (703)605-1155 or after April 15, 2005 (571)272-6809. The examiner can normally be reached on Monday-Thursday 6:00 am-4:30 pm.

7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on 703.308-2702 or (571)272-6812 after April 15, 2005. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
